

**Declaration of Conformity with the European Parliament and Council  
Regulation (EU) on Packaging and Packaging Waste (PPWR)**

**Issuer:** AJAX Corporation, s.r.o.

**To:** All Business Partners and Customers

**Date of Issue:** July 10, 2026

We hereby declare that our company is fully aware of its obligations arising from the Regulation of the European Parliament and of the Council (EU) on packaging and packaging waste, amending Regulations (EU) 2019/1020 and (EU) 2019/904, and is taking all necessary measures to ensure full compliance of the supplied packaging materials with these legislative requirements.

Given the nature of our commercial and manufacturing activities, we declare compliance as follows:

**1. In-House Production (20% of the Product Portfolio):**

For products directly manufactured by our company (primarily corrugated cardboard products and bubble wrap), we guarantee that they meet the essential requirements of the Regulation. This includes restrictions on hazardous substances (e.g., heavy metals), criteria for recyclability, and the minimization of packaging weight and volume.

**2. Distributed Goods / Resale (80% of the Product Portfolio):**

For products where we act as a distributor, we ensure compliance with the Regulation through rigorous verification of our suppliers (the primary manufacturers). We declare that we require and collect appropriate certificates, technical documentation, and declarations of conformity from our suppliers, confirming that these packaging materials comply with all European standards.

**Specific Product Parameters:**

Specific characteristics of individual packaging materials—such as the exact percentage of post-consumer recycled content (PCR), information on compostability, or material composition required for packaging labeling—are available to customers upon request in the product specifications and technical data sheets of the respective products.

This declaration is valid for all deliveries executed from the date of issue until further notice, or until a legislative change occurs that requires its update.
