production: Hrádok 1005 Hrádok, Tel. 0905/222022, email: ajax@ajax.sk

PPWR DECLARATION OF CONFORMITY

We hereby confirm that the products made of polyethylene (PE) film manufactured by the company AJAX Corporation s.r.o. are in accordance with the requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), namely within the scope applicable to the relevant product.

RECYCLABILITY AND RECYCLED CONTENT

The products are recyclable within the existing recycling streams of polyethylene. The company also recycles LDPE materials and depending on the specific production batch it can incorporate PIR (post-industrial) and/or PCR (post-consumer) recycled content into the products.

PRODUCT DECLARATION

LDPE film sold under the trade name Bubble wrap, to which this declaration applies, is in conformity with the manufacturing technological procedure stated by the manufacturers of the input granulates.

Composition: Low-density polyethylene /LDPE/ Based on the information provided by the supplier of the primary raw material, the manufacturer on its own responsibility declares that the above-mentioned product meets the requirements of Regulation (EU) No. 2025/40 (PPWR) – it does not contain perfluorinated and polyfluorinated substances (PFAS). These substances are not contained in the input raw materials and are not intentionally used in the production of the film. The product meets the requirements set in the directives of the European Commission 2002/95/EC and 94/62/EC. The total content of lead, cadmium, mercury and hexavalent chromium (Cr VI) in LDPE films and products made from them does not exceed 100 ppm. LDPE foam sold under the trade name POLYPEN, to which this declaration applies, is in conformity with the company standard

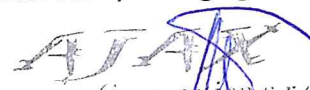

PND 63-011-25.

The products of the company AJAX Corporation s.r.o. do not contain SVHC substances (substances of very high concern) that meet the criteria according to Article 57 and which were published in the candidate list of substances of ECHA revised to 04.02.2026 as raw materials, additives or auxiliary substances in a concentration higher than 0.1 %.

The products are 100% recyclable, can be reprocessed, recycled depending on the amount of impurities and used as secondary raw material. To verify compliance with the requirements of EU Regulation 2025/40 (PPWR), all input raw materials – granulates were tested in testing laboratories to evaluate the PFAS content. The products are signed on the label according to the notification of the Commission directive 1935/2004/EC, if it is suitable for direct contact with food or if the contact is limited. More detailed information about the product is stated in the technical documentation: Test report No.: 23/02018

- Determination of Pb (lead), Cd (cadmium) and Hg (mercury), Determination of PBB and PBDE, Determination of phthalates.
