

PPWR DECLARATION OF CONFORMITY

We hereby confirm that the recycled paper products (Schrenz) manufactured by AJAX Corporation s.r.o. comply with the requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), to the extent applicable to the specific product.

RECYCLABILITY AND RECYCLED CONTENT

The products are recyclable within existing paper recycling streams.

PRODUCT DECLARATION

The corrugated board sold under the trade names 2VLB, 3VLB, 5VLB, and 7VLB, to which this declaration applies, complies with the manufacturing process specifications provided by the manufacturers of the raw materials (i.e., the paper manufacturers).

- Composition: Recycled paper (Schrenz)

Based on information provided by the raw material supplier, the manufacturer declares under its sole responsibility that the aforementioned product meets the requirements of Regulation (EU) No 2025/40 (PPWR)—specifically, that it does not contain per- and polyfluoroalkyl substances (PFAS). These substances are not present in the raw materials and are not intentionally used during paper production.

The corrugated board sold under the trade name "Corrugated Board", to which this declaration applies, complies with the company standard PND 63-012-25. The product meets the requirements set out in European Commission Directives 2002/95/EC and 94/62/EC. The total content of lead, cadmium, mercury, and hexavalent chromium (Cr VI) in the paper and products made from it does not exceed 100 ppm.

Products from AJAX Corporation s.r.o. do not contain SVHCs (Substances of Very High Concern) meeting the criteria of Article 57 and listed on the ECHA Candidate List (as revised on 4 February 2026) as raw materials, additives, or processing aids in concentrations exceeding 0.1%.

The products are 100% recyclable; they can be reprocessed and recycled—depending on the level of impurities—and used as secondary raw materials. To verify compliance with the requirements of EU Regulation 2025/40 (PPWR), all raw materials were tested in laboratories to evaluate their PFAS content.

The products are labeled in accordance with Regulation (EC) No 1935/2004, indicating whether they are suitable for direct food contact or if contact is limited.

Detailed product information is provided in the technical documentation.
